Commissioners

Joseph T. Tricarico
Raymond J. Averna
Thomas P. McCarthy

Stanley J. Carey, Superintendent
Constance A. Belegrinis, Business Manager

Dear Consumer:

The Massapequa Water District is committed to deliver and preserve our water supply for the welfare, health, and safety of the residents of our Water District. We continue to provide quality water that is safe to consume.

The Board of Commissioners has approved a small rate increase effective October 1, 2017 to help fund various capital projects and offset rising operational costs, in addition to protecting our Sole Source aquifer for the fast approaching contamination created by the Grumman/Navy groundwater plume. This rate increase will allow the District to maintain its high level of service and ensure that we continue to deliver clean safe water. Please note that the minimum rate level has not changed and we encourage you to conserve water.

The District is continually balancing the expenses of the District with anticipated revenue, which is weather dependent and can vary greatly from year to year. The expenses to the District are rising due to increases in electricity, fuel, purification costs, New York State Department of Health mandates, and OSHA safety requirements, which are all necessary to preserve the quality of water we deliver to your home. We hope that you understand that this is necessary to maintain a high quality water supply at a reasonable rate.

Explanation of your attached bill

*Note all meters within the District were read in late September in anticipation of this increase, so that bills could be pro-rated using the old rate and new rate.

- Your Current Balance consists of the “old rate” water usage before October 1, 2017 and the “new rate” water usage after October 1, 2017.
Both rate periods make up your normal billing cycle.

Please see the notes on your bill for the “old rate usage and current rate usage”.

If you have any questions, please contact our office Monday – Friday between 8:00am – 4:30pm at 516-798-5266 and one of our dedicated staff members will be able to assist you.

Sincerely,

Constance Belegrinis
Business Manager

*Committed to deliver and preserve our water supply for the welfare, health and safety
of the inhabitants of the Massapequa Water District.*
